FOREWORD

Our initial "QUALITY SALE" for 1972 offers collectors, dealers or investors an opportunity to obtain seldom offered, and in some instances, "Unique Collectors Items". The first lot offered in this sale is a fantastic book and is of museum quality.

In the U.S. section of this Mail Bid Sale there are many offerings for collectors who are in the market for Quality. The condition of these coins is as graded, but you must bear in mind that coins such as the Dollars normally have some bag or handling marks. The U.S. Paper Money lots offer many rarities and the condition on most of these notes is nicer than generally offered. Check over the U.S. Gold offerings for types and dates. As you know, the prices have enhanced quite a bit in the past few years . . . the trend continues upward.

The Foreign Gold and Silver is again a most varied selection, with many interesting medals being offered for the first time. The Russian Gold and Platinum is one of the best selections we have had in many years with many rarities.

Part III of the World Famous E. Kann Chinese Collection is offered, and this selection includes hundreds of unlisted varieties. An opportunity such as this will not present itself again . . . no other large holding of these coins are known. The wise collector or dealer with an eye to the future demand for Chinese coins should purchase these quantity lots for "tomorrow". The E. Kann Collection concludes with the collection of interesting Tibetan coins, plus the so-called "Mint Sports", medals, tokens, etc.

The sale closes at 5 PM—March 20th and within ten days after the sale ends all lots will have been mailed to the successful bidders. Please mail your bid sheets in early and check your bids carefully for any errors. Thank you for your continued interest in our "QUALITY SALES".

TERMS OF SALE

1. Auction sales **ARE NOT** approval sales. **LOTS MAY BE SEEN BEFORE BIDDING.** By submitting bids you agree to the terms set forth below. All coins have been classified by experts and while errors will be gladly corrected **NO LOT MAY BE RETURNED WITHOUT WRITTEN PERMISSION.** Requests to return coins **MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS.**
2. All bids are to be by **LOT** as numbered in the catalogue. When identical bids are received, preference is given to the earliest bidder.
3. **NO BUY OR UNLIMITED BIDS ACCEPTED.** This rule is for your protection. The lots will be purchased for your account below your maximum bid whenever possible.
4. New bidders who have not previously established credit must furnish satisfactory references well in advance of sale date, or send a deposit of 25% of their bids, applicable to purchases. Any portion of such deposit not used will be promptly refunded after sale. We reserve the right to require payment in full before delivery of merchandise.
5. **TERMS OF THIS SALE ARE STRICTLY CASH, AND MUST BE PAID FOR PROMPTLY IN U.S. FUNDS. PAYMENT IS DUE WHEN BILLS ARE RENDERED AND COINS ARE RECEIVED.**
6. Bidders will receive their lots as soon as possible after the end of the sale.
7. Lots and Price Lists delivered in California are subject to 5% Sales Tax.
8. There will be no charge for executing bids. **Bidders must pay all Postage, Express and Insurance Charges.**
9. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. **IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER.** We recommend, however, if you want the lot, bid close to or over estimate.
10. All coins are genuine and as described.
11. Minor's bids will not be accepted!
12. The **PURCHASER**, whether principal or agent, is wholly responsible to the seller. All adjustments are to be made directly between the actual purchaser and seller.
13. Notwithstanding great care by the cataloguer in attributing and printing, regrettably, errors do occasionally occur. In such instances, corrections will be made when feasible, or the lot will be considered withdrawn before or after the closing date.
14. Photographs are of the actual specimens put up for sale. Polaroid photos are available of coins not illustrated in this catalogue at a cost of \$1.00 per coin.

As far as we know this unusual presentation book is unique. For the collector of Colonial Currency or items of Massachusetts this has to be the number one item of its kind. The Smithsonian Museum would be an excellent home for this book, and possibly the successful bidder will in time donate it to the museum. Due to its great rarity, this unique specimen of Americana could easily reach five figures.

- 32 1835 Very Fine. Reverse edge has been cut like a cog wheel. Obverse nice, without damage (20.00)

HALF CENTS, LARGE CENTS

RARE 1840 PROOF HALF CENT

- 33 1840 Restrike. G-2. 11 berries on wreath. Proof—attractive pale purple toning. Very scarce (600.00) PLATE
- 34 1849 Large Date. Very Fine with old handling scratches (35.00)
- 35 1850 Brown Uncirculated—a lovely specimen (100.00)
- 36 1851 Red Uncirculated. Full original lustre. Minor dark spot at 18 in date. Scarce this choice. Worth (75.00)
- 37 1851 About Fine with edge faults top reverse (15.00)
- 38 1853 About Uncirculated. Has been cleaned—now beginning to tone nicely (50.00)
- 39 1854 Sharp About Uncirculated. Worth (50.00)
- 40 1855 Chocolate brown—choice About Uncirculated (50.00)
- 41 1856 (cleaned) Reddish orange—About Uncirculated (40.00)
- 42 1857 Nice Extremely Fine. Dark grayish brown (75.00)

LARGE CENTS 1793-1857

SCARCE 1793 CHAIN CENT

- 43 1793 Chain Cent—Sheldon 3-c. The leaning R variety. XF-40. Very sharply struck reverse. Faultless. Attractive dark brown surfaces. A highly sought after type coin that is estimated to realize (3500.00) PLATE
- 44 1793 Chain, Periods. Sheldon 4, Crosby 4-c. Very Fine. Obverse much sharper than usual for the variety. Reverse bold. Nice chocolate patina. Some tiny field and edge rim nicks. A very attractive specimen. Excellent for type collectors (1950.00) PLATE

CHOICE UNCIRCULATED 1793 WREATH CENT

- 45 1793 Wreath. Horizontal stems, large round bow. S-9. Choice Uncirculated. Pale brown patina. Reverse die breaks through R and CA to bow. Large Cents of this quality are seldom available. Valued at (4500.00) PLATE
- 46 1793 Wreath type, large round bow. Sheldon-9 (R-2), Crosby 9-H. Very Good. Reverse die cracked. Greyish-brown with some faded orange patina around the devices. Several minor rim bruises do not disturb or detract. Everything is readable, although bases of figures in date and L in LIBERTY are somewhat weak. Very popular as a type coin

CHOICE 1793 WREATH CENT

- 47 1793 Wreath Cent. Sheldon 11-c. Lettered edge, single leaf variety. Choice Extremely Fine-45. An excellent specimen with superb surfaces. Ranks amongst the finest known. Considering the demand today for choice quality type coins we estimate this rarity to realize (2500.00) PLATE
- 48 1794 Sheldon-43 (R-2). Hays-34, Chapman-35. Short bust. Weak OF. Advanced obverse and reverse die breaks. Delicate double profile, as on the “DuPont” and Gaskill coins. Very Fine-20, despite some old shallow obverse scratches; otherwise, quite an attractive Cent (150.00)

LARGE CENTS

- 49 1795 Sheldon 76b (R-1). Clapp-Newcomb-4, Doughty-66. Plain edge; ONE CENT high within wreath. Good to Very Good (Good-6). A space filler for the date or type collector (50.00)
- 50 1796 Sheldon-91 (R-3). Clapp-Newcomb-F, Gilbert-F. The wide date; double leaf at CA. The last of the Liberty Cap cents. About Good-3. The obverse would be close to Very good without several minor rim bruises. Reverse—legend faint, except for F AMERICA, parts of wreath (50.00)
- 51 1796 Sheldon-97 (R-3). Clapp-Newcomb-4, Gilbert-4. Draped Bust. Reverse of 1795-96, with single leaves enclosing the wreath. Wide, even curved date. Very Fine-25, although surfaces show microscopic porosity on either side, along with a few old faint scratches. Steel patina, and a nice coin for the grade (250.00)
- 52 1797 Sheldon-138 (R-2, almost R-3). Clapp-Newcomb-21, Doughty-103. Broad obverse denticles; faint crack from base of Y into field. Reverse die swelling at OF. About Very Fine-20. Unusually choice surfaces, virtually free of noticeable defects. Most attractive medium-brown obverse patina, while the reverse displays olive tones mingled with light-blue iridescence. A beautiful specimen for the date or type collector (150.00)
- 53 1798 Sheldon-187 (R-1). Clapp-47, Doughty-121. Small 8, Style II hair. Top berry on left branch droops. Very Good-10, light and dark brown; the surfaces are minutely granular, although not unattractive. Double profile, forehead to chin. Late state: advanced die breaks; rim break opposite mouth, reverse swelling at IC (35.00)
- 54 1799 Sheldon-189 (R-3). Clapp-2, Doughty-138. The Perfect Date 1799. Very Good-8, with the typical blackish-brown patina found on the Coltman Bros. planchets. Well centered and nicely struck. LIBERTY rather strong with the inevitable weakness at bottom of date. While the obverse is relatively clean and sharp for the grade, the reverse, unfortunately, is plagued with numerous old pin scratches from rim to rim. This coin should be of special interest to the date collector who cannot afford many hundreds of dollars for an undamaged coin (650.00) PLATE
- 55 1800 Sheldon-211 (R-3). Clapp-Newcomb-24. Wide planchet. Late state: dies swollen, injuries show near rim at ERTY; cracks at date resemble the famous "Q variety". Although the coin shows no more wear than a normal Fine-15, its sharpness has been dulled by microscopic granularity, and the toning appears to be the result of light burnishing. Uncommonly rare; more attractive than it sounds (35.00)
- 56 1801 Sheldon-244 (R-1). Newcomb-12, Doughty-163. Both I's blunt; Denominator 1 00. Very Good-10, sharply struck with medium and dark brown patina. The flan is somewhat minutely granular. The only other defect is a small planchet clip over N in UNITED. Date collector's coin (35.00)
- 57 1802 Sheldon-232 (R-1). Newcomb-10, Doughty-168. T cut over Y; PHL right side of S. Advanced rim break over ATE. This would easily grade VF-30, but its slightly rough and natural charcoal-gray patina reduces the overall grade to Very Fine-20 (50.00)
- 58 1803 Sheldon-257 (R-2). Newcomb-15, Doughty-192. Close date; large fraction, short bar. Highly attractive and glossy chocolate brown surfaces that are virtually free of naked-eye blemishes. Very Fine-25. Traces of the letters "B" scratched into the obverse field before and behind head. However, this does not detract from the overall sharpness and beauty of this coin, which is singularly rare at the high condition levels (75.00)
- 59 1804 Sheldon-266 (R-3). Doughty-198. The only variety for the year. Perfect dies. Formerly an evenly-worn VG-8, this coin was the victim of some vandal who pin-scratched the obverse rim-to-rim with an "X". In consideration of the obverse casualty, this scarce and popular date collectors' coin should still attract some attention, even as a space filler (200.00)

LARGE CENTS

- 60 1805 Sheldon-269 (R-1). Doughty-201. The Pointed I. Very Fine-20, possibly deserving of a VF-25 grade, save for some minor rim nicks. Dark, blackish-brown in color with fairly clean and glossy surfaces. From the late state of the dies with advanced clash marks and die failure near border below lowest curl (60.00)
- 61 1806 Sheldon-270 (R-2). Doughty-202. The only variety of this year. Fine-15, or slightly better; dark surfaces with medium-brown patina on the devices. Rather weakly struck-up at the borders, as on the majority of the cents of this date. Late state: struck from clashed and bulged dies. A scarce date (75.00)
- 62 1807 Sheldon-276 (R-1). Clapp-6, Doughty-207. The Perfect Date; ER close to hair. Large fraction. Reverse alignment is almost normal. Sharpness of a Fine-15, however, a few trifling rim bruises forces reduction of the grade to Fine-12. Mottled dark brown patina. From the early state of the dies, without rim breaks (35.00)
- 63 1808 Sheldon-279 (R-2). Clapp-3. Turban Head. Thirteen stars; PHL center of S. Late die state: the very rare "injured die" sub-variety; stars at right connected to rim, date and ribbon ends distorted, part of O in ONE deeply incused just in front of throat. Soft, weak obverse strike; reverse sharp, nearly EF in terms of actual wear with some traces of "cartwheel" effect. Mottled dark brown and olive gloss. Fine-15, despite several old scratches on the obverse field (50.00)
-
- 64 1809 Sheldon-280 (R-3). Doughty-210. Only the one variety for this year. A difficult coin to grade because of the weak, flat strike on the obverse, which is typical for the majority of cents for this year. Very Fine, especially bold on the reverse which approaches the EF level. Uniformly dark steel-gray patina. Late state: all die cracks described by Dr. Sheldon, and with clashed dies. The rarest date of the Turban Head cents (300.00)
-
- 65 1810 Sheldon-283 (R-2). Clapp-3, Doughty-213. Perfect date. About Fine-12, attractively mottled olive-green and charcoal-gray patina. A nice coin for its condition level (35.00)
-
- 66 1811 Sheldon-287 (R-2). Clapp-2, Doughty-216. The Perfect Date. About Very Fine-20. The stars at left are rather sharply struck, which is unusual for this date. The reverse is not as bold as the obverse. Excellent surfaces, light glossy tan (250.00)
-
- 67 1812 Sheldon-288 (R-1). Clapp-1, Doughty-217. Large Close Date. Fine-15, medium brown. A few minor handling marks on the obverse; reverse with a hairline flan crack between AT in STATES across to rim at R in AMERICA (35.00)
-
- 68 1813 Sheldon-292 (R-2). Clapp-1, Doughty-221. The Distant Star Variety. Very Fine-30, sharply struck with the obverse slightly off to the right. A very clean and attractive cent that was probably recolored long, long ago, as the toning is quite natural in appearance (115.00)
-
- 69 1814 Crosslet 4. Choice Uncirculated. Attractive dark brown toning. Greatly in demand for the type. Should realize (950.00) PLATE
-
- 70 1814 Sheldon-294 (R-1). Clapp-1, Newcomb-224. The Crosslet 4. Very Fine-30 or thereabouts, bold and well struck and centered, displaying some natural "cartwheel" effect. Light tan and olive gloss (60.00)
-
- 71 1816 Newcomb-2 (R-1). Randall hoard variety. State V. Close date. Two rim breaks at right. Choice About Uncirculated-50 (100.00)
-
- 72 1817 Newcomb-11 (R-1). Very Fine-25, despite several minor rim bruises (25.00)
-
- 73 1818 Newcomb-10. Wide date, connected stars. Randall hoard variety. Mint State-60. Obverse with mint red; reverse toned to a glossy olive iridescence (100.00)
-

LARGE CENTS

- 74 1819 Newcomb-5. State B. Close date, stars away; PHL midway S O. Extremely Fine-40. Only one scratch on reverse from O in ONE to line under CENT is the only flaw. Decidedly underrated, as this variety just does not turn up in auction (75.00)
-
- 75 1820 **Newcomb-13. Die break connects all stars and date. Pale hazy brown tones. Randall hoard. Uncirculated (150.00)**
-
- 76 1820 Newcomb-13. Widest large date; PSL far beyond D. Connected stars. Randall hoard variety. Obverse recolored long ago. Very Fine-30 (25.00)
- 77 1821 Newcomb-2. Wide date, low 8. Fine-12, slightly sharper on reverse (45.00)
- 78 1822 Newcomb-10 (R-2). Wide date. Top of N above I in UNITED. Extremely Fine-40, with faded mint lustre remaining. Choice (75.00)
- 79 1824 Newcomb-4. Wide date. Crack from 4 through last three stars. Very Fine-20, medium brown with clean surfaces (35.00)
- 80 1825 Newcomb-8. Small A's. PLF almost under right end of stand of F. Very Fine-30 (35.00)
- 81 1826 Newcomb-1. R in LIBERTY double, close date; small S's. Extremely Fine-40, with some minor reverse porosity (50.00)
- 82 1826 Newcomb-3. Large S's. ST very close, close date. Fine-15. R-3, possibly R-4. Seldom offered variety (30.00)
- 83 1827 Newcomb-11. Wide date. PHL midway S O. Recut base of T in CENT. Highly lustrous and attractive olive gloss. Extremely Fine-45 or better (50.00)
- 84 1828 Newcomb-6. 2 over 8. PLF beyond stand of F. Medium brown. Very Fine-35. Virtually free of surface abrasions (35.00)
- 85 1829 Newcomb-2. Close date, large letters. State III. All die cracks described by Newcomb. Very Fine-35, but has been blackened, which has rubbed away from some of the high points (35.00)
- 86 1830 Newcomb-4. State II. Cracked dies. "Inner Circle" obverse. Large letters. Final A far from stem. Very Fine-25. Date collector's coin (25.00)
- 87 1831 Newcomb 7. Star very slightly right; C in AMERICA almost closed. Nearly of full mint sharpness and reddish-brown lustre. Most attractive. Common in worn conditions, but seldom offered choice. About Uncirculated-55 (75.00)
- 88 1832 Newcomb-1. Close date, small letters. Very Fine-35. Lustrous light olive. Minor edge "test cut" over F in OF, otherwise without impairment. Rarity 3 (25.00)
- 89 1832 Newcomb-2. Rarest variety of the year. R-4. Very Good-10. Small letters. State II. Cracked from rim through fifth to tenth stars (15.00)
-
- 90 1833 **Newcomb-3. Wide Date, Large Letters. 1 leans left. Gem Uncirculated. Fully equal to the Helfenstein coin at \$130.00. Obverse—light reddish-tan faded from mint color. Reverse—with golden patina. Comparable with the coin in the 1964 ANA Sale and the Fritz piece. Seldom available finer and easily one of the top two or three in the Condition Census.**
-
- 91 1833 Newcomb-6. Blunt 1. First star close to bust. Late State. Heavy break through bases of N in UNITED. Very Fine-25 (20.00)
- 92 1834 Newcomb-1. Small close date, large stars. Reverse, small letters. Sharpness of Very Fine, but several minor patches of verdigris reduce this to Fine-15 (20.00)
- 93 1834 Newcomb-2. Same type as last; wider date. PLF midway F A. Nice Fine-15, evenly worn (20.00)
- 94 1834 Newcomb-4. Large date, small stars, small letters. Reverse from the type of 1836 hub; two center dots. Choice dark greyish-brown. Extremely Fine-45. Rusted reverse die. Decidedly rare in top grades above Very Fine.
- 95 1835 Newcomb-5. Type of '34. Small date, small stars. Very Fine-35, and a rare type in top grades. Very much in demand. Usual fine crack through bases of 835 and to right (30.00)
- 96 1835 Newcomb-6. Obverse as last; reverse, type of '36. Very Fine-25, medium to dark tan (30.00)

LARGE CENTS

|----|------|---|
| 97 | 1836 | Newcomb-3. State III. Rim break over sixth star. Reverse die cracked as described in Newcomb. Line over I in UNITED faint. Attractive dark olive, faded from mint color. About Uncirculated-55, with just the barest rubbing keeping it from being called Mint State (100.00) |
|----|------|---|
-
- | | | |
|----|------|---|
| 98 | 1837 | Newcomb-4. Plain hair cord; large letters; wide date. Crescent-shaped crack from rim, third to seventh stars, to rim beyond. Very Fine-35. Black-brown, relatively clean surfaces. R-3 (35.00) |
| 99 | 1837 | Newcomb-10. Beaded hair cord; small letters (type of '38). About Uncirculated-50 and toned to various shades of olive and brown. Sometimes called the "low date". Ex-New Netherlands 59th Sale, formerly purchased from Elmer Sears, March 27, 1905 (75.00) |
-
- | | | |
|-----|------|--|
| 100 | 1838 | Choice and glossy, Mint State-60. Very attractive "autumn leaves" toning, with a small spot on denticles to left of date as the only flaw; otherwise, this coin is quite choice. The original mint frost displays the full "cartwheel" effect on both sides (100.00) |
|-----|------|--|
-
- | | | |
|-----|------|---|
| 101 | 1838 | Newcomb-3 (R-2). Blurred denticles from first star to 183; small extra dot directly above center dot. Very Fine-35. Light reddish-tan, and a very pleasing cent virtually without visible defects (20.00) |
| 102 | 1838 | Newcomb-4 (R-1). Inner circle gone; LI recut at bases. State IV; numerous die cracks through 838, long piece out of die above 8; rim breaks below 83 and twelfth star. About Uncirculated-50 with sharp and lustrous surfaces. Highly attractive olive and tan patina. Choice (50.00) |
| 103 | 1838 | Fine. Very pleasing patina (10.00) |
| 104 | 1839 | Newcomb-4. Silly Head. First and commoner variety, without round hole in ear or extensive cracks. Formerly EF-40 or slightly better in sharpness, however, it has been "dipped", therefore downgraded to Very Fine-25. When this retones to a more natural color, this will be a very pleasing example of this type (50.00) |
-
- | | | |
|-----|------|---|
| 105 | 1839 | Unlisted. "B-15". Obverse of N-12; reverse of N-13. About Very Good but flatly struck. Excessively rare. Only the fourth one reported. Should command a good price from the specialist. |
|-----|------|---|
-
- | | | |
|-----|------|--|
| 106 | 1840 | Newcomb-2. Small 18 over large 18. This obverse was originally intended for use in 1839, but was not used. It was altered in 1840 with the small date punches of that year. Very Fine-25, light tan patina, and with a few trivial microscopic handling marks (25.00) |
| 107 | 1840 | Newcomb-12. Small date; plain die defect under base of 1. Very Good with numerous little surface nicks on either side (10.00) |
| 108 | 1841 | Newcomb-5. Extensive cracks through stars and on reverse. Strictly Good and a very scarce variety (15.00) |
| 109 | 1841 | Newcomb-6. The regularly seen variety with file marks behind the head. Fine-12 (15.00) |
| 110 | 1842 | Newcomb-3. Large date. Extremely Fine-45. beautifully mottled medium tan and brown in color. Highly attractive surfaces, virtually flawless and glossy. Brilliant proofs coined from these dies. A choice specimen of a variety that has consistently been missing from the major cent collections offered in the last decade of two (50.00) |
| 111 | 1843 | Newcomb-5. Obverse and reverse of 1844. Very Fine-30, but with numerous light nicks on either side and with several tiny obverse rim bruises. Very popular as a type (25.00) |
| 112 | 1844 | Newcomb-6. Fine diagonal die scratches from chin to neck, short horizontal die scratches below 1; reverse cracked as described in Newcomb. Very Fine-35, but poorly struck-up on the lower curls and a few upper reverse leaves (20.00) |
| 113 | 1845 | Newcomb-2. Very Good, mostly light and dark olive; clean surfaces for the grade (7.50) |
| 114 | 1845 | Newcomb-4. Underside of the top of 5 recut. Only Fine-15 and was cleaned long ago, but a very common variety (10.00) |

LARGE CENT

-
- | | | |
|-----|------|--|
| 115 | 1845 | Newcomb-5. Perfect obverse die. Reverse with die chips at bases of N in ONE, E in CENT, die scratches over UNITE. Mint State 65. A beautiful fiery red Uncirculated. One of the finest known. Finer than Hines Sheldon-Starr-Sloss coin (250.00) |
|-----|------|--|
-
- | | | |
|-----|------|---|
| 116 | 1846 | Newcomb-6. Small date, closed 6. Curl point midway 84; 46 recut at bases, first cut too low and then corrected. About Uncirculated-50 with very choice and clean surfaces. Attractive chocolate brown patina. Scarce variety. (50.00) |
| 117 | 1846 | Newcomb-6, another. Fine-15, despite some minor handling marks on either side. Scarce (10.00) |
-
- | | | |
|-----|------|---|
| 118 | 1846 | Unlisted. Small date; obverse similar to N-17, curl midway inner and outer curves, but left base of 1 over center of a denticle, heavy outline under 1, 6 delicately recut. Reverse die new, with heavy diagonal line behind both serifs of E in CENT, also a fine spur atop right serif of N. The wear is of a normal XF, but under a strong glass the surfaces appear minutely rough. Very Fine-30 should easily be accurate. Unpublished and to our knowledge, UNIQUE! |
|-----|------|---|
-
- | | | |
|-----|------|---|
| 119 | 1847 | Newcomb-4b. Recut 18. Rare state of the dies; more extensive and heavier die breaks than described by Newcomb; minute rim break over first A in AMERICA, plus additional unpublished crack through bases of ICA, through end of stem, to rim below ribbon. Extremely Fine-40. Most golden-olive with some faded purple iridescence on the obverse. Rare (25.00) |
| 120 | 1847 | Newcomb-7. Dash down from denticle between seventh and eighth stars; unpublished short diagonal die file scratches up from throat. Apparently very scarce, as none have turned up in any condition in auctions for many years. Very Fine-30, chocolate brown patina, with numerous little nicks on the obverse (20.00) |
| 121 | 1848 | Newcomb-17. Closed 4; left edge of upright of 4 recut. Very Fine-20, although the sharpness is closer to VF-35, it is downgraded because of minor obverse handling marks, and having been cleaned at one time. Very rare variety, lacking in almost every cent sale (25.00) |
| 122 | 1849 | Newcomb-20. Fine dot under right serif of Y; point hangs down from lower diagonal of N in ONE. Sharpness of VF, however, it has been cleaned and is now retoning. Fine-15 (10.00) |
| 123 | 1850 | Newcomb-3. Red Uncirculated-MS-60. Just beginning to tone slightly. Scarce. Worth (75.00) |
| 124 | 1850 | Newcomb-11. Formerly VF-35 before it was cleaned; now retoning. A few minor handling marks on either side, otherwise Very Fine-20 (15.00) |
| 125 | 1851 | Brown Uncirculated. A nice type coin. Sharp strike (65.00) |
| 126 | 1851 | Fine-15. Very pleasing patina (7.50) |
| 127 | 1851 | Newcomb-5. State II. Faint crack from fifth star to top of coronet. VF-30 before it was cleaned; now retoning. Fine-15 (7.50) |
| 128 | 1852 | Newcomb-3. Cracked from rim between TE of UNITED. VF-30 before it was cleaned; now retoning. Fine-15 (7.50) |
| 129 | 1853 | N-25. Superb pale brown Uncirculated. Lovely satin finish (75.00) |
| 130 | 1853 | Newcomb-25. Faintly recut at bases of 1, 3; minute engraver's scratch up from second berry. Brilliant Uncirculated. Although the toning has been skillfully removed and the brilliance artificially restored, the coin retains its full original "cartwheel" effect. Commonly seen hoard variety (65.00) |
| 131 | 1853 | Newcomb-30. Diagonal line connects chin to neck. About EF-40 before it was cleaned, toning down naturally. A few tiny rim bruises on reverse. Very Fine-20 (10.00) |
| 132 | 1854 | Newcomb-20. Die pit at center neck, another at rim between 85. EF before it was cleaned, now retoning. Very Fine-25 (10.00) |
| 133 | 1855 | Newcomb-4. Upright 5's. The familiar variety with four tiny dots on cheek and neck; uncracked reverse die. Mint State-70. Brilliant and choice; blazing original mint red gem, the color of a red-hot coal. A few flyspecks away from the superb level; very minor obverse spotting, much less than usually seen on this common hoard variety (75.00) |
-

LARGE CENTS, INDIAN HEAD CENTS

- 134 1855 Newcomb-9. Slanting 5's. The famous "knob on ear" sub-variety. Actual sharpness of EF-40, or thereabouts, however, the coin has been cleaned. Some minor obverse rim abrasions. Very Fine-25 (35.00)
- 135 1856 Upright 5—Newcomb-11. Reddish brown Uncirculated (75.00)
- 136 1856 Upright 5—Newcomb-11. This specimen was EF-45 before someone cleaned it. Beginning to tone down naturally, but there are also some light surface scratches. Very Fine-30 (12.50)
- 137 1856 Newcomb-14. Slanting 5. Very delicate lump on jaw directly above the numeral 1. Mint State-60. Rather sharply struck for this variety; attractive golden light brown with a tinge of olive around the periphery. Excellent surfaces for this common hoard variety (75.00)
- 138 1856 Newcomb-17 (Possibly R-7). First two and last three stars recut. Extremely Fine-40, light tan and olive. Identifiable by a small stain in field near twelfth star, another smaller one near curl back of head. Very rare in all grades. In the "DuPont" sale, Dr. Sheldon stated that he knew of no others above Fine. One of the top examples in the Condition Census.

SECOND FINEST KNOWN 1857 CENT—NEWCOMB 1½

- 139 1857 Newcomb—1½ (High R-7). Large date. Delicate double profile top of coronet, forecurl, tip and underside of nose, and on chin. Extremely rare, only the fourth reported and, to our knowledge, this specimen is the second one ever to appear at auction. At least About Uncirculated-50, with much mint frost remaining, especially on the reverse. RRR early die states of the reverse showing the die file marks at UNI. Virtually flawless surfaces, save for several pre-striking planchet chips on either side (as made), and identifiable by a tiny spot at forecurl. Poorly struckup on the lower curls and a few upper reverse leaves. Second finest known, surpassed only by one Mint State example, and next ones in the Condition Census are VF

E. KANN COLLECTION—UNLISTED VARIETIES

Our June and September 1971 auction sales contained the varieties listed in his "Illustrated Catalog of Chinese Coins". (The two mentioned catalogues are available with the plate sections and prices realized at a cost of \$5.00.) These are excellent references and if you do not have them we suggest you order the pair while our supply lasts. In Part III of the Kann Collection we offer his unlisted varieties. Mr. Kann states many times in his book that in addition to the coin listed he has, for example, "27 varieties of the piece," too numerous he felt to classify, though as important as the varieties he catalogued. We quote his statement on page 63 in reference to K-128—"To correctly classify this category is in the full sense of the word hair-splitting, a venture which is liable to ruin one's eyes. The author holds 10 such varieties, but deems it advisable to catalogue here one or two only". To the collector and specialist in Chinese coins I am sure this will be a rewarding challenge. Mr. Kann's collections were housed in pages before we broke it up for auction. Under each coin was the number and variety letter he assigned to it. The unlisted varieties he continued to letter (and number when he ran out of letters in the alphabet.) Polaroid photos are available of these unlisted varieties at a cost of \$1.00 per coin.

EARLY CHINESE SILVER DOLLAR COINAGE

1837-1890

THE FIRST CHINESE DOLLARS

The early Formosa Dollars require an explanation as regards their "manufacture" as this coin was not struck from hard metal dies as we visualize. The coin was partially cast and partially compressed by soft-molds such as form of hard clay. These molds were made of a soft metal such as copper or brass or even porcelain, all engraved by hand. The soft molds used in the actual manufacture of the coin could only be used once; the master die being made of soft-metal wore out quickly, necessitating re-engraving of new dies. This probably is the reason that so many varieties of this particular coin (K-1, etc) may be found.

2164 1837 1 Dollar—First FORMOSA Silver Coin (undated). Kann 1i variety. Choice Extremely Fine. One chop mark on forehead, two stamps on reverse. Worth at least (350.00)

2165 1837 1 Dollar—First FORMOSA Silver Coin. 40 mm. Kann 1t. Minor variations. Many chop marks. Fine

2166 1837 1 Dollar—First FORMOSA Silver Coin. Kann listed this on his album pages as variety K-1u. 41½ mm. Maker's name incused on reverse. Uncirculated. Rare this choice (450.00) PLATE

1853 FORMOSA DOLLARS

(Kann noted in his catalog that he had fourteen differing varieties, distinguished partly in the style of handwriting and partly in size, thickness, etc. These are varieties as listed on the Kann album pages with letters as assigned by E. Kann)

2167 1853 1 Dollar—Second FORMOSA Ration Silver Coin (undated). K-2b. 40 mm. in diameter. Quite a few chop marks. Very Fine (250.00)

2168 1853 1 Dollar—Second FORMOSA Ration Silver Coin. 41 mm. K-2d. 11 chop marks. Choice Extremely Fine (300.00) PLATE

2169 1853 FORMOSA Dollar, as above. 41½ mm. K-2e. Many chop marks. Very Fine (300.00)

2170 1853 FORMOSA Dollar. 40 mm. Kann listed this specimen as K-2f. Many chop marks. About Extremely Fine.

2171 1853 FORMOSA Dollar. 40 mm. K-2g. Many chop marks on both sides of coin. Very Fine (300.00)

2172 1853 FORMOSA Dollar. 40 mm. K-2h. Not too many chop marks. About Extremely Fine (300.00)

2173 1853 FORMOSA Dollar. 41 mm. K-2i. Deep chop and "test" marks on both sides. Not much sign of circulation. Very Fine.

E. KANN COLLECTION

2174 1853 FORMOSA Dollar. K-2j. Many chop marks on both sides. Would grade About Uncirculated but the chop marks obviously tend to lower grade of conservative Very Fine.

2175 1853 FORMOSA Dollar. 41 mm. K-2l. Very few chop marks. Obv. a trifle flat struck. Rev. Sharp. Choice Very Fine.

2176 1853 FORMOSA Dollar. 41 mm. K-2m. The last of these varieties from the Kann collection. Deep chop marks and black stains on portion of reverse. Very Fine.

1862 FORMOSA DOLLARS

Mr. Kann's collection contained ten different specimens of type 4, distinguished by the style of calligraphy, design, or size. These are the balance of his collection not previously offered.

2177 1862 1 Dollar FORMOSA Silver Coin (undated). 41 mm. K-4b. Many chop marks. Very Fine (300.00)

2178 1862 1 Dollar FORMOSA. Kann variety 4c. A number of deep chops. Very Fine

2179 1862 1 Dollar FORMOSA. K-4d. Many chops. Very Fine

2180 1862 1 Dollar FORMOSA. K-4e. Deep chop marks. Choice Very Fine

2181 1862 1 Dollar FORMOSA. K-4f. Many chop marks and other variations that the specialist in this series would recognize. This statement applies to all sub-varieties that E. Kann noted but did not list in his catalog. Very Fine

2182 1862 1 Dollar FORMOSA. K-4h. Many chop marks and test marks. Very Fine

2183 1862 1 Dollar FORMOSA. K-4i. Possibly the best known of this type. No chop marks. On reverse is the incused character standing for "Treasury". Choice Extremely Fine. PLATE

**THE KANN COLLECTION
OF
TIBETAN SILVER COINAGE**

For centuries TIBET lived in self-imposed isolation. For the mass of world travelers TIBET remained beyond the beaten path. It is not to be wondered that it is difficult to render an account of TIBETAN coinage. Along with a handful of scholars, Mr. Kann presents many interesting facts on this extremely rare coinage. We assume that all collectors of this series possess the Kann Catalogue as complete descriptions have been omitted. The values are based on catalogue prices—1966 edition.
